

DeKalb County Board of Health Advanced Practice Center

Master the Disaster!

An interactive tabletop exercise builder designed to help local public health agencies and other first responders identify strengths and weaknesses in their emergency preparedness plans.

Features include:

- Seven Emergency Scenarios
- Image and Question Banks
- Facilitator's Guide
- Evaluation Tools

Local Heroes

Local Heroes is a training and social marketing campaign designed to celebrate the everyday heroic work of public health professionals, while providing them with tools for becoming better prepared for tomorrow's public health emergencies.

This easy-to-use DVD-ROM features an employee emergency preparedness handbook that contains a wealth of information, including an emergency roles and responsibilities checklist for over 170 local public health agency job titles. The DVD also includes:

- Strategies for winning management support for the campaign
- Complete train-the-trainer materials
- Promotional materials and activities to build employee interest and enthusiasm (vendor-ready artwork for posters, t-shirts, lapel pins, lanyards, bumper stickers, contests, etc.)

Student Outreach and ResponseTeam (SORT) Program

A dynamic mentoring/recruitment program that integrates graduate students into local public health practice, providing students with practical experience and local public health agencies with future workforce members and increased surge capacity in case of an emergency.
